American Mine Manager Killed  
In Camp Feud Near Guadalajara

By Associated Press.  
GUADALAJARA, Mexico, Oct. 17.—Thomas Barrett, mine manager, and William Kendall, a mine employee, were killed Tuesday in a feud at the mining camp in the state of Jalisco.  
Twenty-five foreigners were threatened with extermination, according to reports received today. Fifty rural guards from Magdalena came to the rescue and escorted the foreigners to Magdalena, where they took a train for this city.

SENATOR CLARK COMES MONDAY  
TO MEET TONOPAH CITIZENS  
AND TO STAY OVER NIGHT

Senator W. A. Clark of Montana will arrive in Tonopah Monday morning to get acquainted with local industrial conditions. This will be his first visit to this camp, although he has been in Goldfield several times, and the men who are close to the senator say the visit is one of deep import to the citizens of Tonopah.  
Senator Clark owns the Las Vegas & Tonopah railroad, extending from

SULZER GUILTY  
AND NO LONGER  
GOVERNOR  
OF N. Y.

REMOVED FROM EXECUTIVE  
MANSION BY A VOTE OF  
43 TO 12.

(By Associated Press.)

ALBANY, N. Y., Oct. 17.—William Sulzer is no longer governor of New York. A few minutes before noon today the high court of impeachment, by a vote of 43 to 12, removed him from office. Senator Wendt and Presiding Judge Cullen excused themselves from voting.

The proposition to disqualify Sulzer from holding any place of honor or trust in the state was voted down unanimously.

Sulzer received the news in silence at the executive mansion, where he waited all morning.

Prior to the vote for disqualification and removal the last four articles of the impeachment were unanimously voted down.

Martin H. Glynn, the acting governor, becomes governor, and Robert F. Wagner, New York majority leader of the senate, lieutenant governor.

WANT TO MAKE  
THE JUDICIARY  
NON-PARTISAN

JUDGE COLEMAN CONFERS WITH  
RENO ATTORNEYS ON MEET-  
ING OF ATTORNEYS.

District Judge B. W. Coleman of the ninth judicial district, while in Reno, conferred informally with attorneys R. G. Withers and S. S. Downer in the interest of a plan to take the judiciary of Nevada out of politics. The State Bar association will meet in Reno on October 30 and Judge Coleman expressed his hope that at the meeting some definite plan might be devised for changes in the law so as to make all candidates for judicial honors run on a non-partisan ticket.

At a meeting of the State Bar association a year ago, on the motion of ex-Congressman Bartlett, committees were instructed to prepare reports on a method to achieve this result. Judge Coleman has always advocated taking the judiciary out of politics and he expects to renew his recommendations at the coming meeting.

Las Vegas, Nev., to within twenty-five miles of this camp, and when the road was opened the senator expressed his disappointment at the absence of representatives from Tonopah at the ceremony. Had he not been treated so coldly, he said, he would have continued the line to its destination, as he never began a railroad without reaching the points included in its title.

The Las Vegas & Tonopah railroad is one of the few pieces of track in the United States that has not a dollar of bonded indebtedness, as it was built entirely at the expense of Senator Clark, and is one of the best equipped roads in the country.

Senator Clark will probably arrive in his special car and remain over Monday evening, leaving for San Francisco in the morning.

This is the golden opportunity for Tonopah business men to show their mettle. The visitor is entitled to something more than ordinary recognition and an extension of his line to Tonopah would mean the placing of a large sum in circulation in the way of wages. It has been proposed to hold a reception, where the senator may meet the people, and it has also been suggested that a committee of entertainment be formed for the purpose of taking Senator Clark around the camp and show him the mines and mills.

CRITICISM OF A  
LOCAL ARTIST  
WELL DESERVED

ELMER TANZEY WINS PRAISE  
FROM A WELL-KNOWN  
WRITER.

Few citizens of Tonopah know of the presence of a local painter whose creations have won praise from some of the best art critics. This is Elmer Tanzey, insurance agent and musician, who indulges in landscapes when he feels impelled. Recently Mrs. Adele T. Jones sent one of his pictures to Mr. Benjamin DeCasseres, essayist and art critic, who acknowledged it with the following comment:

"I have the painting before me and it becomes more beautiful each day. The dream effect is wonderful. Those blues—ghostlike, evanescent, dreamy. The sagebrush is perfect—the most perfect thing in the picture, technically. When the light falls on the sky and hills the effect is fascinating. Mr. Tanzey is a real impressionist; his eye is the brush to his emotions, which is the essence of all impressionism. It is not what one sees that counts, for we all see the same things, but how do I feel about what I see? That is the secret. And that is what makes the impressionist school so great. Each impressionist must be different. The picture is a wonderful and beautiful poem. Mystical, vague, suggestive, it makes me desire your desert immediately."

That the standing of this critic may be understood, the following excerpt from an eastern art magazine will tell: "We firmly believe that there is only one futurist in this land who paints all their pictures, writes all their catalogues, issues all their manifestos and revolutionary speeches, and his name is Benjamin DeCasseres."

Latest Airship Crumples Up  
and Strews Men's Corpses  
Around the Village Streets

By Associated Press.  
BERLIN, Oct. 17.—Twenty-six of twenty-seven military men were killed this morning by an explosion in midair of "L II," the newest and largest of the Zeppelin war airships.  
The disaster happened just above the main street of Johannisthal, while the dirigible, 500 feet long, was making a trial trip in the preliminary acceptance as flagship for the German aerial navy. Spectators heard an explosion and saw a flash of flame as the ship crumpled and dropped 900 feet to the public highway. Many of the bodies were so burned and mangled as to be unrecognizable.  
Lieutenant Baron Von Bleut of the Queen Augusta grenadier guards, making the trip as a guest, was the only survivor. His condition is critical. The first explosion was due to an accident to one of the motors in the center gondola and was followed shortly by a second, the fire reaching the gasoline tanks.  
Six men in the center gondola were blown through the side of the car on the first explosion. The bodies fell a quarter of a mile from the wreck of the ship, which was traveling forty miles an hour at the time.  
This makes seven Zeppelins destroyed by fire, explosion or wrecked.  
BERLIN, Oct. 17.—Captain Habsler, Lieutenant Koch and Sergeant Mante of the German army aviation corps were killed early today when their aeroplane fell. The accidents occurred just before the airship disaster.

CHILD REMOVED  
FROM POLLUTED  
ENVIRONMENT

TEMPORARY ACTION TAKEN ON  
PETITION OF THE WOM-  
AN'S CLUB.

The 3-year-old daughter of Mrs. Mike Kolach, whose case occupied the district court for the last three days, was temporarily committed yesterday to the care of Mrs. Davenport, representing the Tonopah Woman's club, for safekeeping until such time as the court determines what final disposition to make of the child. Sympathy for the mother was expressed and it may develop that Judge Averill will be satisfied with leaving the girl in the care of the parent providing she is taken from the restricted quarter.

The petition asked for an immediate severance of parental ties and the evidence offered in support of this petition brought to light a most shocking physical and moral condition filled with unspeakable atrocities of which the baby was the victim, but the court decided to take the final order under advisement.

INJURED IN A MILL  
IN OLD TUSCARORA

WORKMAN CAUGHT BY REVOLV-  
ING SHAFT FRACTURES  
LEG AND ARM

William Laverne, employed in the mill at Tuscarora, sustained serious injuries yesterday, when his clothing became entangled on a shafting and he was revolved through the air several times before extricated from his perilous position. That he escaped with his life is miraculous, and considering the injuries sustained, Laverne can consider himself as being fortunate.

Laverne was brought to Elko last night by Dr. Secor and placed in the sanitarium conducted by Mrs. Fedema. His injuries consist of a compound fracture of the right leg, a fracture of the left arm and several fractured ribs. The patient stood the trip well and experienced no inconvenience during the journey.—Elko Press.

WISCONSIN WILL HAVE  
BUILDING IN FRISCO

(By Associated Press.)  
SAN FRANCISCO, Oct. 17.—Governor McGovern of Wisconsin, and commissioners dedicated today the site for a state building at the exposition.

SLAYS A RAVISHER.

CHICAGO, Oct. 17.—When William Keith was told by his wife that Walter Paul, a grocery clerk, had attacked her, Keith lay in wait for Paul here today and shot and killed him.

SIXTH HOLE WILL  
SETTLE POTASH  
BORINGS  
IN NYE

FIFTH WELL PROVES A COM-  
PLETE FAILURE IN RAIL-  
ROAD VALLEY.

Victor Barndt, president, and Dick Walker, superintendent of the Railroad Valley company, arrived last evening by auto from the valley, where they have been conducting explorations for potash, and will return tomorrow to witness results from the sixth or latest hole sunk in the old lake site.

Should it prove that the sixth hole is a failure, then the company will abandon the search for potash and begin exploiting the resources of the lake for soda. This is present in enormous quantities and could be produced at a cost of \$5 a ton. The selling price in San Francisco is \$20 to \$25 a ton, but unless cheap transportation could be had the soda would not be of much commercial value at this time.

"The death of Mr. Bernheimer, the head of the proposed Ely-Goldfield railroad, was a disaster that few persons can appreciate. He was the best friend we ever had for the better development of Nevada," remarked Victor Barndt this morning.

In the drilling operations holes 3 and 5 were complete failures. No. 4 was the best well. No. 5 went down to a depth of 703 feet, when the drill struck solid rock, which is supposed to be a submerged volcanic island. The hole showed sand and salt artesian water. Well No. 6 was started on Wednesday morning and was down 370 feet Thursday. This is a mile and a half from No. 4. The drill used is the American rotary drill and the record for fast work is held by the boys of Railroad valley who put down the No. 5 in seven shifts of eight hours each, or an actual drilling time of 46 hours. Mr. E. V. Gamble of Ely, who handled the machine, sent the drill down 310 feet inside an eight-hour shift. This was between the depths of 76 and 386 feet and the performance included the casing.

A store that advertises must be a store of values—of "bargains"—or the advertising would not pay.

BIG FIRE IN RENO  
CAUSES HEAVY LOSS

By Associated Press.  
RENO, Oct. 17.—A fire of mysterious origin today destroyed the Nevada Hardware Supply company's store, with a loss of \$150,000, partly insured.

FIFTEEN YEARS  
IN PENITENTIARY  
FOR A STICKUP

PRISONERS SATISFIED AND TAKE  
THEIR SENTENCES  
CHEERFULLY.

George Wallace, Charles R. Burke and A. J. Schwartz, the three hold-ups of Chinatown, were sentenced this morning by Judge Averill to fifteen months in the penitentiary. The court gave the boys some good advice about leaving the hop alone, and added that he was moved to clemency by their youth, and then consigned them to state's prison. The boys said they thought they had got off light and were glad they pleaded guilty.

Sheriff Malley will take them to Carson City tomorrow morning.

WALTER TRENT GETS  
IMPORTANT CONTRACTS

WELL-KNOWN ENGINEER REACH-  
ES OUT FOR FRESH  
BUSINESS.

Reaching out nearly a thousand miles in opposite directions, the Walter E. Trent Engineering company has brought two big contracts to its central office in Reno. One of these is for the installation of a \$50,000 hydro-electric plant at Idaho Falls, 50 miles north of Pocatello, Idaho, and the other is for the installation of one of the new Trent lime filters at the oil flotation copper concentration mill of the Gunn-Thompson interests at Miami, Ariz.

Walter E. Trent of the engineering company spent just one day in Idaho Falls and brought back the contract for the hydro-electric plant. Idaho Falls is a town of 6000 population on the Oregon Short Line.

In connection with the lime-filter order, the adoption of this appliance in the 600-ton plant of the Inspiration Copper company may mean a much larger order later for the reason that the 600-ton plant, large as it is, is merely a huge test mill for the process, looking forward to a 10,000-ton mill costing several millions, if it proves the success expected.

CITY FOUNDED IN SIXTIES  
NOW ONLY A MEMORY

At the county recorder's office is a valuable plat filed in 1864, at the time when Charles H. Fish was county recorder, being a map of American City, located on what is now the deserted and forsaken American Flat. At that time the Flat boasted of a large population, had its own township officers and was a thriving community. The township was most elaborately laid out, and located about in the center of the town was Capital park, intended to become a beauty spot of Storey county.—Virginia City Chronicle.

Chinese Brigands Burn and Slay  
and Government Remains Inactive

By Associated Press.  
PEKING, Oct. 17.—A force of brigands commanded by General Liang murdered 300 in the province of Fo Kien. They burned the mission churches of American missionary societies. Government troops sent against the brigands were inactive. The Chinese war office promised American Charge d' Affaires Williams to take measures to suppress them. The missionaries in that district fled to Fu Chow.

WILLOW CREEK GOLD CAMP  
WANTS TO BUY ITS SUPPLIES  
FROM THE TONOPAH MERCHANTS

C. L. Osterlund of Ely, and one of the owners of the Willow Creek Gold Mining company, which boasts of a phenomenal find of high-grade in eastern Nye county, is at the Mizpah hotel. He came in last evening and, without any ostentation, quietly deposited with Manager Marks a dull looking slab of rock measuring 11 by 18 inches, which might weigh seven pounds, and valued at \$300. It was only a sample and is nothing to brag of, except as a curiosity for those who have never seen an exhibit of value in such compact form. The Willow Creek Gold Mining company has more of the same character ore that runs to \$50,000 a ton, but that is not the best on tap, as a single shipment of 502 pounds realized \$2960.40 at the smelter. Other samples of high-grade yield at the rate of \$78,000 a ton. These are the nearest approach to the jewelry shop of ore than anything ever seen in Tonopah.

The president of the company is John Kugelke of the American house, McGill, White Pine county. These men and all their interests are centered in Ely, but they signify a desire to come to Tonopah for the purpose of trading and shipping ore. All they want is the assistance of Nye county in building a road.

Mr. Osterlund has a map showing the eastern end of the county and what he is going to suggest to the county commissioners. He saw Chairman Davis this morning and thinks the chance is so good that the county will grant their petition. The cost of improvement would not be more than \$1500 and the Willow Creek Gold Mining company is willing to subscribe one-half of that amount, leaving only \$750 for Nye county to contribute. The company has built a road up the canyon to the mines and wants the county to shoulder a share of the cost of building about a mile and three-quarters from the regular wagon road between Ely and Tonopah. This construction would throw the trade of the company to Tonopah, where the owners prefer to trade, as it is a downhill haul and this is the natural center for mining men. By the Tonopah route, Mr. Osterlund says, his company can ship ore and supplies \$10 a ton cheaper than by the Ely gateway, and with a saving of two hours and a half in time.

The main road from Willow Creek is in excellent shape and nothing can

FREIGHT HEARINGS  
SET FOR OCTOBER

TONOPAH COMPANIES INTEREST-  
ED IN SUIT FOR OVER-  
CHARGES.

H. C. Leavitt, freight rate specialist, has assurances that five cases before the interstate commerce commission will be heard October 29 before Examiner Flynn in San Francisco. These cases involve principally alleged overcharges for transportation of high explosives. The plaintiffs are the Nevada Hills company, the Tonopah Extension company and the Goldfield Consolidated company, while defendants are the Atchafalaya, Topeka & Santa Fe Railway company, the Rock Island company and the Pennsylvania company.

## TEMPERATURE REPORT.

Highest temperature yesterday, 57 degrees; a year ago, 65.  
Lowest temperature last night, 40 degrees; a year ago, 49.

DEDICATION OF THE  
HIGH SCHOOL  
TONIGHT

The new high school will be dedicated this evening and everybody is invited. There will be room for all. Extra seats have been provided and the gymnasium will have a capacity for 800 persons without straining the accommodations. The opening for the children occurred last evening, when they held their rally, but the official acceptance and formal ceremonies will be held this evening. The gymnasium has been beautifully decorated for the occasion and the interior will prove a delightful surprise.

This afternoon a flag salute with patriotic exercises were conducted by Superintendent Smith outdoors, when the pupils gathered around the flag and sang the national anthem and closed with "America."

Tonight the building will be open for inspection at 7:45 and a committee of teachers will be present to show visitors around. The Tonopah Brass band, under the leadership of Professor Carl, will discourse music in front of the building until 8:15 o'clock and the program will begin promptly at 8:30. This late hour was set expressly to allow visitors to inspect the building. Dancing will begin at 11 o'clock and continue to 1 a. m. with a committee of teachers under the superintendent present to the adjournment.

The program of exercises is as follows:

Band selection, "Southern Breezes"—F. P. Atherton.  
Remarks of welcome—C. W. Smith, superintendent of schools.  
Solo—Mr. Johns.  
Presentation of pictures by Women's Relief corps—Mrs. John Nicol. Responses by John Luce and Loretta Pohl.  
Piano solo—Mr. Fife.  
History of Tonopah Schools—W. W. Booth.  
Chorus, "Lullaby" (Metzler)—Choral society.  
Remarks, "Our New Building"—H. C. Schmidt.

Corney solo, "Magnolia"—C. Nelson.  
Duet—Mr. Johns and Mr. Richards.  
Speech, "Progress"—Judge Averill.  
Solo, "Irish Lullaby"—Miss Foltz.  
"America"—Audience.  
Band selections—(a) "Dream of the U. S. A." (Snyder); (b) Reverie, "Romance of a Rose" (Jean Masaud).

## NURSERYMEN MEET.

By Associated Press.

FRESNO, Oct. 16.—Over 100 delegates attended the third annual convention of California nurserymen today.
